helping the most vulnerable patients have a better chance at healing

Forward-Looking Statements and Non-GAAP Financial Information

Certain statements included in this presentation may be considered forward-looking statements. These forward-looking statements are often, but not always, identified by the use of words such as “seek”, “anticipate”, “plan”, “estimate”, “expect”, “intend” and statements that an event or result “may”, “will”, “should”, “could”, or “might” occur or be achieved and other similar expressions. More specifically, this presentation contains forward-looking statements which include, but are not limited to statements regarding: the Company’s corporate strategy and strategic objectives; the availability of external financing to fund the Company’s ongoing liabilities and commitments; the direct and indirect impact of the COVID-19 pandemic on the Company’s business and operations, including supply chain, manufacturing, research and development costs, contracted service providers and employees, and general business and economic events. These forward-looking statements involve risk and uncertainties, including the impact on the Company given its current liquidity situation, the difficulty in predicting product approvals, acceptance of and demands for new products, the impact of the products and pricing strategies of competitors, delays in developing and launching new products, the regulatory environment, fluctuations in operating results, and other risks, any of which could cause results, performance, or achievements to differ materially from the results discussed or implied in the forward-looking statements. Such forward-looking statements should not be taken as guarantees of future performance of Covalon.

All forward-looking statements are based on Covalon’s current beliefs as well as assumptions made by and information currently available to Covalon and relate to, among other things, anticipated financial performance, business prospects, partnership opportunities, strategies, regulatory developments, market acceptance and future commitments. The reader is cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date of this presentation.

Due to risks and uncertainties, including the risks and uncertainties identified by Covalon in its public securities filings, actual events may differ materially from current expectations. Covalon disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise.

Certain financial measures in this presentation – namely earnings before interest, depreciation and amortization (“EBITDA”), adjusted EBITDA, pro-forma EBITDA, free cash flow and enterprise value – are non-IFRS financial measures. While Covalon and certain of its competitors measure and evaluate the performance of their respective consolidated operations and business segments with reference to these and similar measures, non-IFRS measures do not have any standardized or prescribed meaning under IFRS or otherwise and therefore are unlikely to be comparable to similar measures presented by other companies. These non-IFRS measures should not be considered in isolation or as a substitute for financial measures prepared in accordance with IFRS. All non-IFRS measures are included because management monitors and uses the information on a regular basis to analyze the performance of the business and therefore may be considered useful information.

For further information about the risks and uncertainties relating to forward-looking statements included in this Memorandum, the recipient should consult the “Risks and Uncertainties” section of Covalon’s annual MD&A dated January 25, 2023, as well as those contained in Covalon’s interim MD&As and other public record filings on SEDAR.

All figures are in Canadian dollars, unless otherwise noted, and Covalon’s fiscal year end is September 30th.

We aren’t just another medical device company…

covalon TECHNOLOGIES LTD.

TSX-V: COV
OTCQX: CVALF

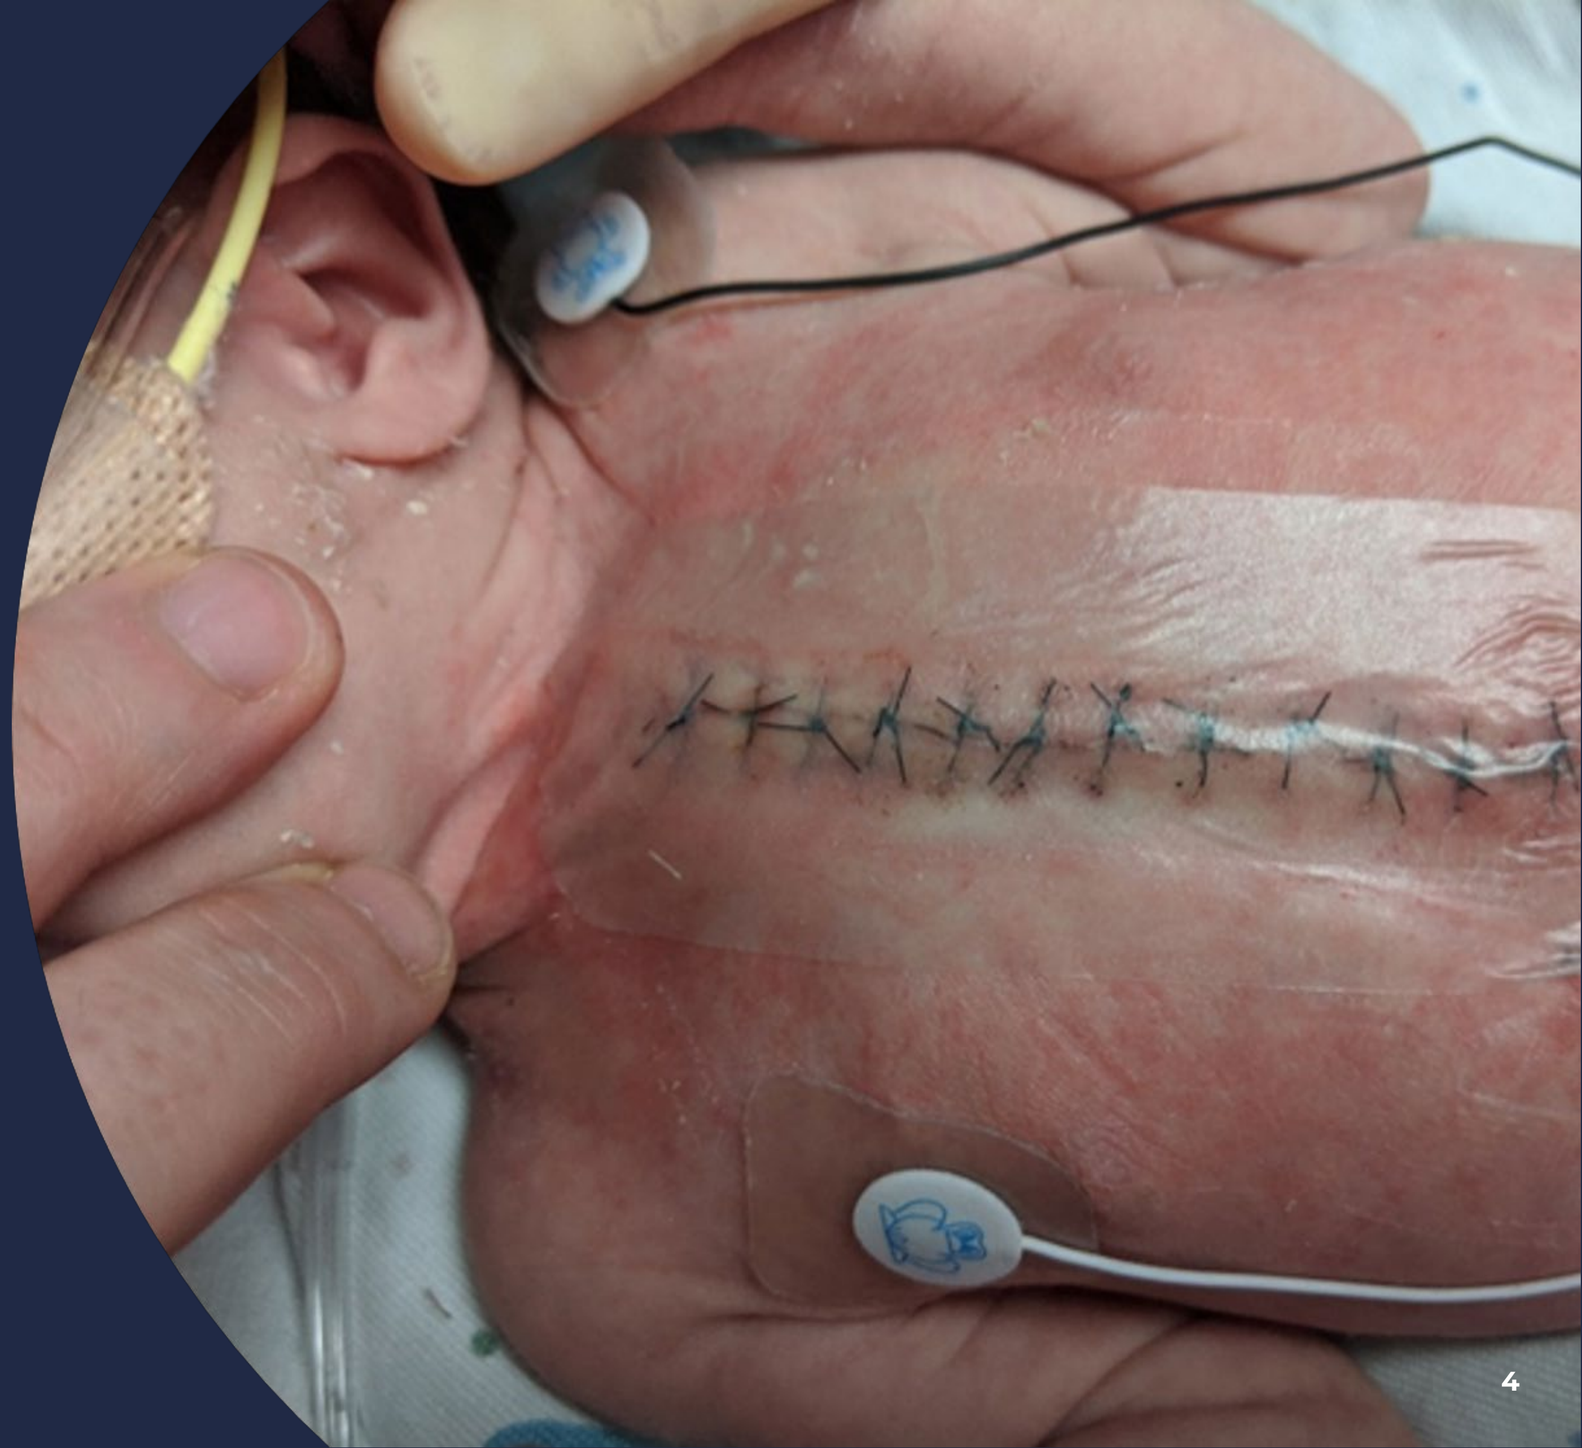
Covalon is a patient-driven medical device company, built on the relentless pursuit to help the most vulnerable patients have a better chance at healing.

Through a strong portfolio of patented technologies and solutions for advanced wound care, infection prevention, and medical device coatings, we offer innovative, gentler and more compassionate options for patients to heal with less infections, less pain, and better outcomes.

Our solutions are designed for patients and made for care providers.

Our Mission

Provide innovative and cost-effective healthcare solutions that **reduce pain, prevent infection, and promote healing**.



covalon
TECHNOLOGIES LTD.

Innovative, compassionate care products delivered efficiently, will displace current standards of care because they result in better clinical outcomes and better clinician-patient interactions at a lower cost of care.

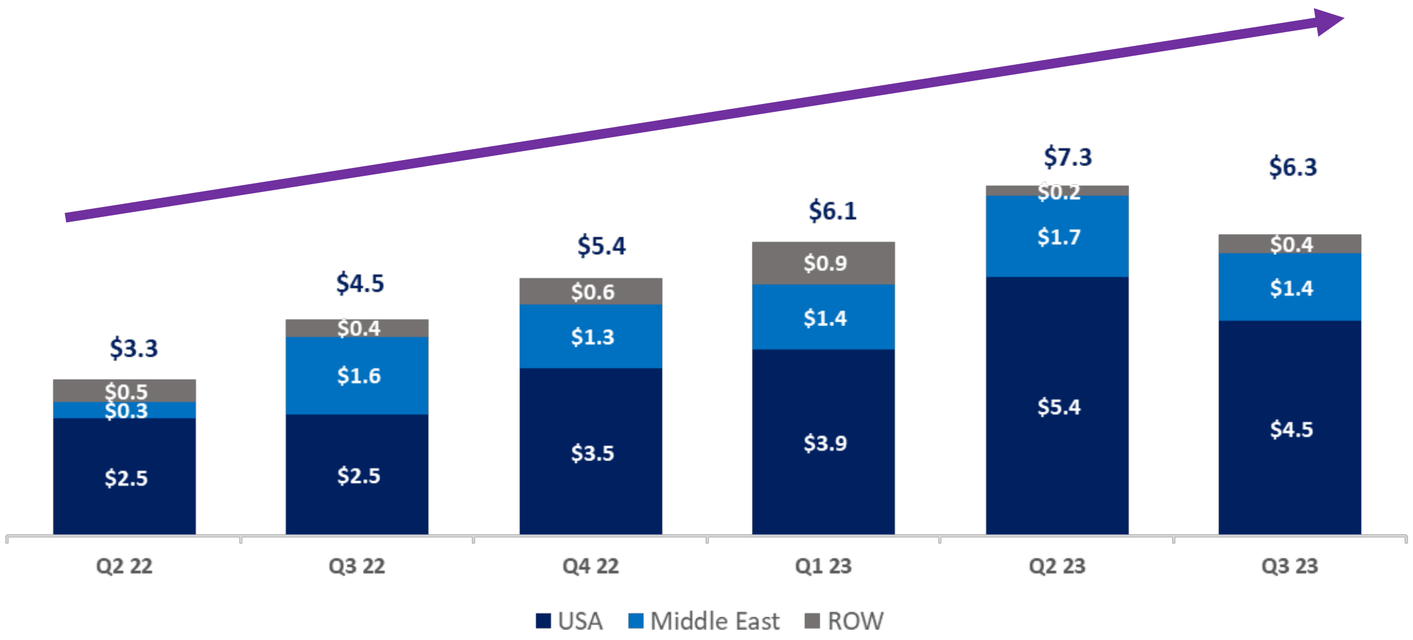
covalon TECHNOLOGIES LTD.

For the nine months ended June 30, 2023

Quarterly Revenue Growth Last 6 Quarters



57% **YTD 2023 Adjusted Gross Margin[1]**

Key Takeaways

- Strong revenue growth over last year
- Forecasting revenue growth for 2023 vs 2022
- United States revenue growth tracking to plan
- Middle East revenue continuing to return to expected levels, but still “lumpy” quarter to quarter
- Rest of World “lumpy” growth quarter to quarter
- Gross margins anticipated to improve in 2023 compared to prior years

[1]Adjusted for inventory provisions and other adjustments.

covalon TECHNOLOGIES LTD.

Third Quarter 2023 Financial Results – Key Highlights

- Revenue year to date was $19.7 million, compared to $12.8 million in the prior year
- Revenue was $6.3 million for the quarter, compared to $4.5 million in the prior year
- Q3 Gross margin was $3.6 million or 57%, an improvement over last year's $2.1 million or 47%
- Covalon ended the period with $9.2 million of cash on the balance sheet
- Third quarter net loss of $0.5 million or $0.02 per share and Adjusted EBITDA loss of $0.4 million compares to net loss of $1.6 Million or $0.06 per share and adjusted EBITDA loss of $1.0 Million in the prior period

Results are for the three and nine months ended June 30, 2023 and 2022.

Continuing operations includes revenue from our core business of collagen, and antimicrobial silicone adhesive dressings.

Discontinued operations are comprised of AquaGuard operations for the periods.

Balance Sheet Consistent with Significant Cash and No Debt

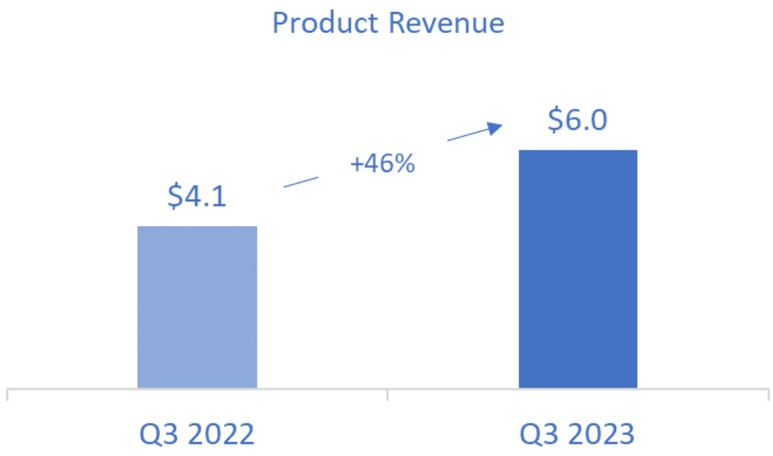
	Sept. 30, 2022	June 30, 2023
Cash	$14.1M	$9.2M
Current Assets	$27.2M	$22.9M
Total Assets	$30.4M	$26.4M
Debt	$----	$----
Current Liabilities	($4.5M)	($4.3M)
Total Liabilities	($6.1M)	($5.3M)

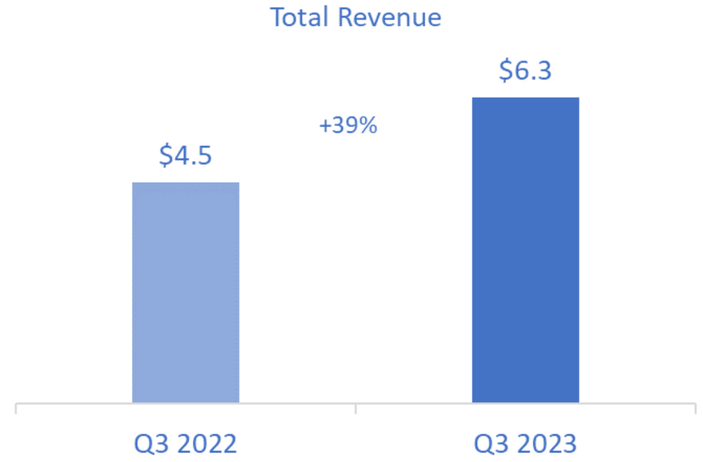
Key Takeaways

- We ended Q3 2023 with $9.2M cash on the balance sheet
- Current assets consists of cash, accounts receivable, inventories and prepaid expenses
- Current liabilities consist of trade payables, accruals, current lease liabilities and deferred revenue
- No debt, strong working capital position

Q3 2023 Revenue

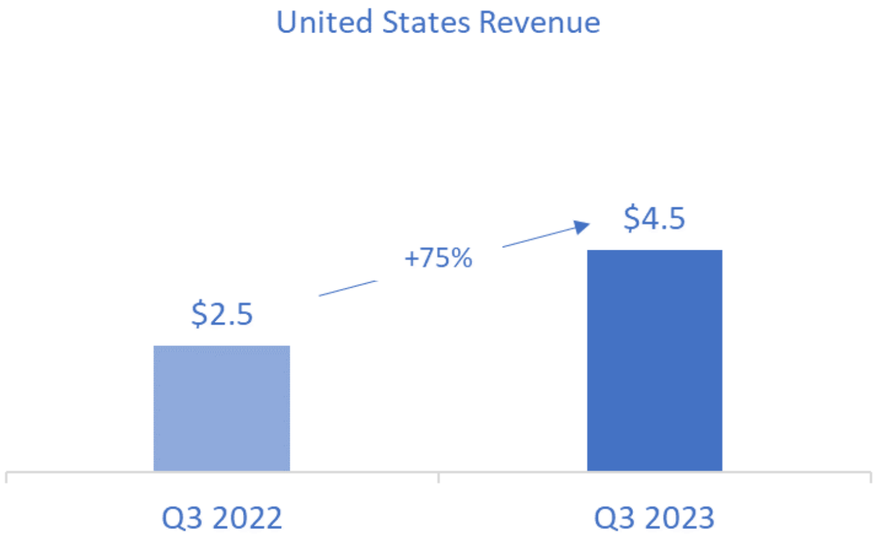
- Product revenue increased 46% to $6.0 million, compared to $4.1 million for the same period in the prior year.
- Development and consulting services revenue for Q3 2023 decreased by 44% to $0.2 million, compared to $0.4 million for the same period of the prior year.
- Revenue from development and consulting services represented 3% of revenue this quarter (8% in Q3 2022)
- The Company has decided to transition away from medical coating projects and instead focus its business strategy on the Company's core business verticals.

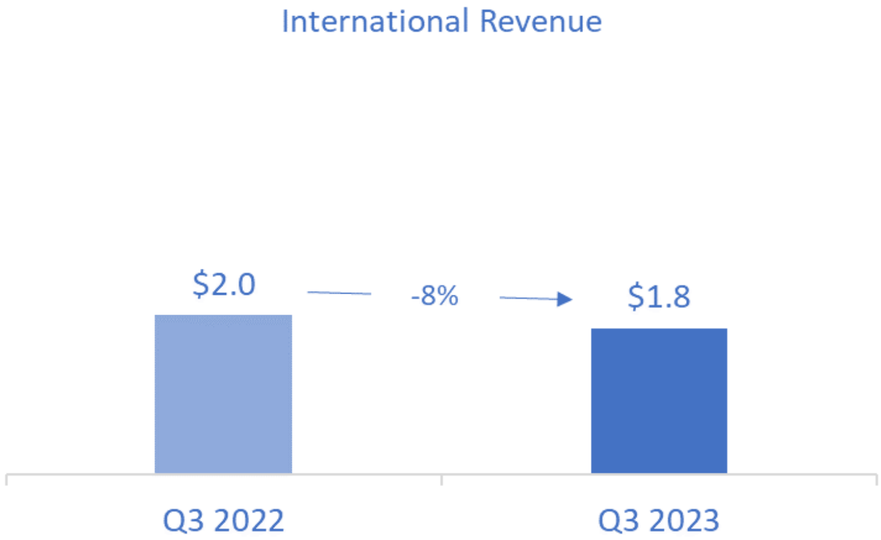




Q3 2023 Revenue by Geography

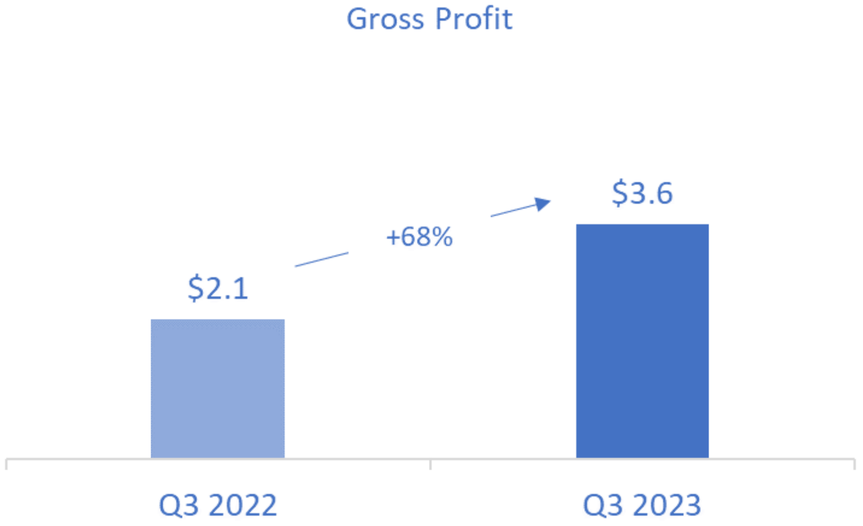
- United States accounts for 70% of revenue year-to-date.
- Q3 Revenue in the United States increased by 75% to $4.5 million, primarily as a result of increased collagen sales.
- Q3 International revenue was down slightly by 8% to $1.8 million. Revenue decreased in the Middle East as a result of the timing of deliveries under competitive contracts awarded to the Company.
- On a year-to-date basis International revenue is up 43%.
- Revenue growth in the United States continues to be a focus for the Company in both our direct sales to hospitals and through our distributor partners into long-term and home health care settings.

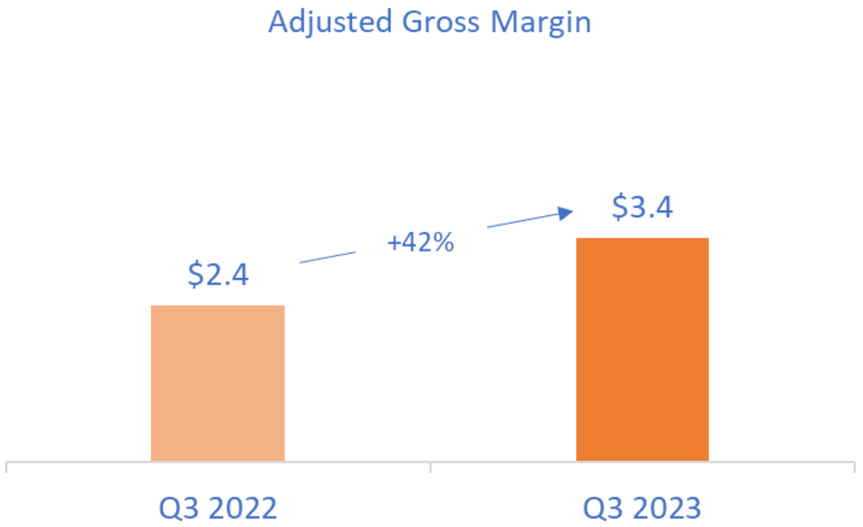




Q3 2023 Gross Profit and Adjusted Gross Margin(1)

- Gross margin for the period ended June 30, 2023, was 57% compared to 47% for the same period of the prior year.
- The gross margin is significantly influenced by source of revenue, recording of inventory provisions and by the relative mix of products sold in any given financial period.
- Adjusted gross margin(1), which excludes inventory provisions and depreciation, was 55% for Q3 fiscal 2023, an improvement compared to last year's 53% adjusted gross margin.

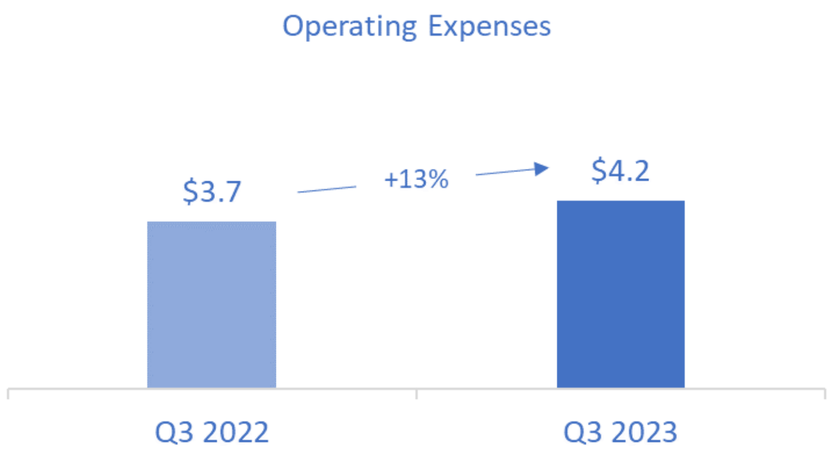


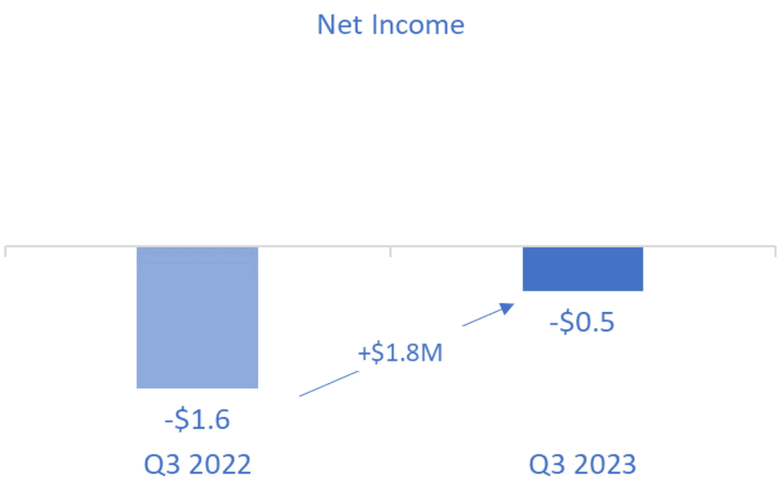


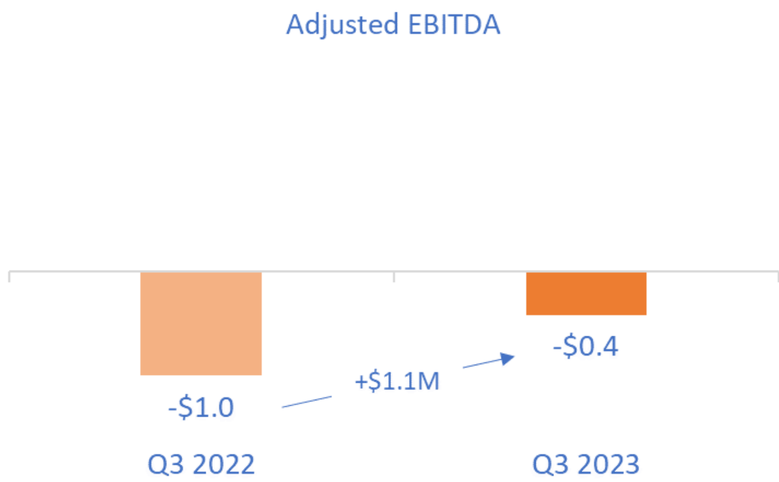
(1) See "Non-IFRS Measures" in the MD&A, including for a reconciliation of the non-IFRS measures used in this presentation to the most comparable IFRS measures

Q3 2023 Operating Expenses and Net Income

- Operational expenses increased 13% to $4.2 million compared to $3.7 million for the prior year, due mostly to increased headcount in sales and marketing as the Company continues to invest in growing its direct sales and marketing team in the United States.
- Net loss was $0.5 million compared to a net loss of $1.6 million last year.
- Adjusted EBITDA loss was $0.4 million compared to a loss of $1.0 million last year.







Fiscal 2023: Strong Path to Financial Growth

- **Investing in Sales and Marketing initiatives to drive aggressive growth in our US Hospital Market**
  - Currently have over 100 US hospital customers
  - 3 strong infection prevention products
- **6 of the Top 10 Pediatric Hospitals in the US use Covalon products to protect their patients from infection**
  - Our products are currently used in about 20% of the pediatric hospitals in the US
- **International and US Wound Care business expected to achieve 25% CAGR in Revenue 2022 through the end of 2025**

2025 Targets:
